

Resolution Copper is committed to creating sustainable benefits for the local community. This scorecard is updated quarterly.

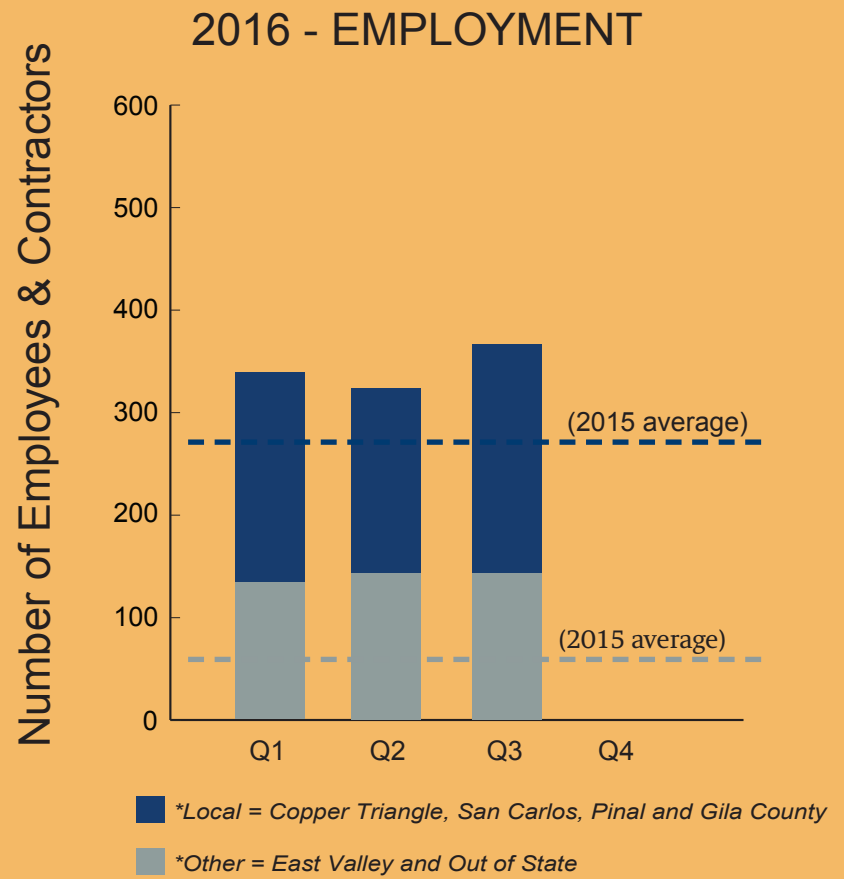

## KEEPING OUR WORKFORCE SAFE

Safety is our number 1 priority.

## CREATING JOBS

Local employment in the Copper Triangle region.

## PROTECTING THE ENVIRONMENT

### Reclamation and Rehabilitation

Great progress has been made reclaiming the historic Magma Mine site. To date, the teams have safely excavated an area covering more than 13 acres of mine impacted soils. The excavated soils are being placed within the tailings storage facility which is also in the process of being closed and reclaimed.

The projects are being undertaken by local contractors Oddonetto Construction of Globe and Superior Environmental of Superior.

Resolution Copper is ahead of this year's schedule reclaiming and rehabilitating the historic Magma Mine site.

### 2016 - DOLLARS SPENT WITH LOCAL COMPANIES

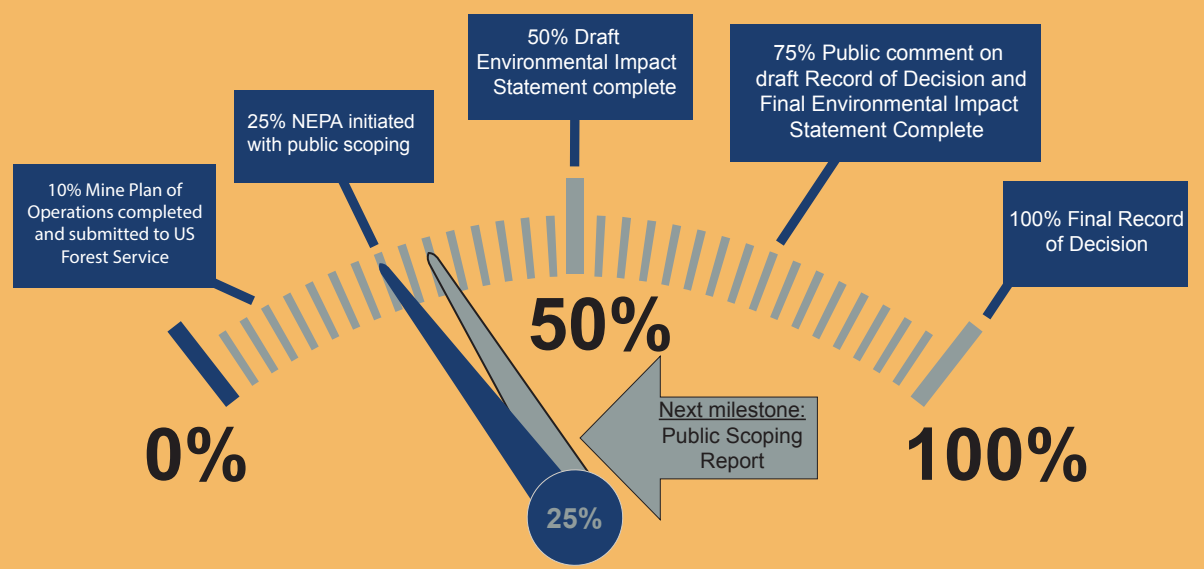

## PERMITTING

EIS scoping is complete under the National Environmental Policy Act (NEPA). Issues identified during scoping are being analyzed by the U.S. Forest Service in order to shape the formal environmental review. Additional information may be obtained at [resolutioncopper.eis.us](http://resolutioncopper.eis.us).

Public scoping was initiated on the Apache Leap Special Management Area. An environmental analysis (EA) level of NEPA will be completed before the Special Management Area can be finalized.
